

It is wrong for big corporations that use our public airwaves (for free) to break the law and use them to serve their own bottom lines and political interests.

It is Sinclair's RESPONSIBILITY to make sure that opposing political candidates get equal time on their stations, and it is the FCC's RESPONSIBILITY to see to it that they do.

By using our public airwaves for one-sided politicizing, Sinclair will be undermining our democracy. And by turning a blind eye, the FCC will be helping them.

Thank you,
Britt Gallagher
